

UMAMA AYAZ

Project Coordination | Stakeholder Management | Requirement Gathering | Agile/Scrum | Project Tracking
Bhopal, India | ayazumama049@gmail.com | www.linkedin.com/in/umamaayaz

PROFESSIONAL SUMMARY

Project coordinator with experience supporting software projects across business and technical teams. Combines technical understanding with project coordination experience to clarify requirements, connect stakeholders, and drive work toward delivery. Experienced in navigating ambiguous project challenges, adapting to changing requirements, and coordinating teams through shifting priorities.

EXPERIENCE

Hacker Kernel • Bhopal, India

IT Project Coordinator 19 Aug 2026 – Present

- Coordinate with clients and development teams to clarify requirements, define priorities, and translate discussions into actionable tasks.
- Monitor project progress, dependencies, blockers, and sprint commitments, proactively following up to keep deliverables on schedule.
- Facilitate Agile ceremonies and coordinate across business, development, and testing teams to support smooth execution and timely delivery.

IT Project Coordinator Trainee 18 Feb 2026 – 18 Aug 2026

- Supported requirement gathering, client communication, task coordination, and project documentation across software projects.
- Tracked sprint deliverables, timelines, blockers, and team activities using project management tools and spreadsheets.
- Supported Agile ceremonies, testing coordination, and follow-ups between clients and development teams.

Trailblazers International School • Bhopal, India

IT Educator Aug 2025 – Feb 2026

- Delivered computer science lessons and supported students in understanding technical concepts.
- Planned lessons, tracked student progress, and adapted teaching approaches to different learning needs.

Quasar Digital Solutions • Bhopal, India

Web Developer Intern Aug 2024 – Feb 2025

- Developed responsive web applications using HTML, CSS, JavaScript, React.js and SQL.
- Collaborated with development teams on feature implementation, debugging, and application improvements.

KEY PROJECTS & INITIATIVES

Pairlix - Muslim Matrimonial Platform

- Investigated repeated App Store rejections and identified opportunities to better align the product with a serious matrimonial experience.
- Researched matrimonial platforms and proposed product and feature improvements, with multiple ideas incorporated into the final product.
- Coordinated with the development team to translate requirements into actionable tasks, testing, and iterations.
- Contributed to repositioning the product as a dedicated matrimonial platform, ultimately achieving App Store approval.

D'Golden Vault - Savings & Rewards Platform

- Coordinated development activities for a fintech application focused on savings and rewards.
- Gathered and clarified requirements, aligned priorities with the development team, and supported execution across project phases.
- Supported sprint planning, testing, issue resolution, and release tracking throughout the project lifecycle.

Fund Management Platform

- Coordinated ongoing project activities across clients, business stakeholders, and development teams for an established software platform.
- Gathered and clarified requirements, tracked deliverables, and coordinated communication to keep project work aligned.
- Supported feature planning, testing, issue tracking, and release activities to ensure smooth delivery of project updates.
